Mathskey.com: Math Homework Help and Answers - Easy Counter

Casares observes that the bitcoin price can be calculated by multiplying the number of holders with \$7,000. Assuming that this constant is maintained and there are 3 billion people owning bitcoin, each unit of the cryptocurrency will be worth \$1 million as the supply of the cryptocurrency is fixed at 21 million units.. We are still way, way off that target as the number of active bitcoin users ...

Welcome to my math notes site. Contained in this site are the notes (free and downloadable) that I use to teach Algebra, Calculus (I, II and III) as well as Differential Equations at Lamar University. The notes contain the usual topics that are taught in those courses as well as a few extra topics that I decided to include just because I wanted to.

Pauls Online Math Notes

These resources are designed with both the student and teacher in mind. A primary concern is simplifying the process of knowledge transfer. This involves clear demonstrations of mathematical methods and then achievable and measurable goals for students.
