I thought the same exact thing. The reports of seeing her walking on the Rd with blood going down her legs and the report of a neighbor seeing her having her arms stretched out with something red all over her arms and walking in the garage and then turns around to go back in made me think of either a miss carriage or a abortion which I thin the person in the gray car was assisting her with either ...

What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1. It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.
