There are many different versions of the Angry Birds Parabola Project. We have tested them all. Some are fun for the students to do but require way more time on art related activities than the actual math.

### **Angry Birds Parabola Project \* Algebra2Coach.com**

The pigs have stolen the birds' eggs. That makes them angry, very angry. They take aim and launch themselves towards the pigs to get their revenge and reclaim their babies. Based on the classic angry birds game you will be guiding the birds to ensure that their aim is good. Enter the correct quadratic equation and birds fly on the right path and knock out the pigs.

We have just spent a week working with quadratics in MPM2D and today I had students create their own angry birds level. The only real requirement was for them to create at least two flight paths and model them with quadratic equations. I was hoping to see how they relate the equation to the graph. This worked out better than expected.
