Currently we have no further information about the P1573 Audi OBDII code. Please post your question on our "Questions" section for more information: AutoCodes.com Questions

P1573 AUDI - Left Engine Mount Solenoid Valve Open Circuit

in this case i would suspect that the mounts are bad - possibly as simple as the connectors have been pulled off. I just took the solenoid mount out and replaced it with a standard non electric mount. I think a new mount is about £75 + vat from audi... try the connection 1st, you will see it on mount..

The "check engine" indicator of my Audi A6 keeps going on and off indiscriminately. What's causing this? What needs to be done when the yellow ABS light of my Audi A6 starts blinking? A faulty torque converter is most likely the cause of the blinking light as well as repair code P0741. Replacement of the torque converter is required.
