If your company has an existing Red Hat account, your organization administrator can grant you access. Thu, 06 Dec 2018 00:52:00 GMT Product Documentation - Red Hat Customer Portal - Introduction. Your Domain Name Service is the road sign to your systems on the Internet. No matter how secure and robust your Web, mail and other servers are, compromised and corrupted DNS systems can prevent customers and legitimate users from ever reaching you. Running BIND9 DNS Server securely - Boran - What is it? Wikipedia knows..

Domain Name Service Response Policy Zones (DNS RPZ) is a method that allows a nameserver administrator to overlay custom information on top of the global DNS to provide alternate responses to queries. It is currently implemented in the ISC BIND nameserver (9.8 or later). Another generic name for the DNS RPZ functionality is "DNS firewall". DNS Response Policy Zones -
