GoPro Camera Comparison Chart (April 2018) | Fast Comparison

Most of the newer digital cameras have plenty of resolution for beginning photographers to make reasonably sized prints, which means the maximum resolution in a digital camera isn't as important as it used to be. In other words, most new digital cameras can shoot what are considered high-resolution photos.

High-Resolution Photography Tutorial - Lifewire

Click here for a printable PDF version. The size is 15.75x8.45 inches (400x240mm); you will probably have to resize to fit your printer. In principle, you should be able to print this chart and perform resolution tests on your camera.

The iPad has consistently been the best of the best in the world of tablets. Each new release seems to set a new threshold, with the latest iPad Pro rivaling the power of most laptops. But while it is easy to choose an iPad, it is not so easy to narrow that choice down to a specific iPad. The iPad lineup is now broken into the Pro level of tablets to go along with the basic iPad models.

iPad Comparison Chart: Compare All Models of the iPad

Optical resolution describes the ability of an imaging system to resolve detail in the object that is being imaged. An imaging system may have many individual components including a lens and recording and display components. Each of these contributes to the optical resolution of the system, as will the environment in which the imaging is done.

The difference in DVR and security camera resolutions described to help better understand the meaning and comparisons between all of the possible recording resolutions and image sizes and frames per second (fps).

Difference in DVR and Security Camera Resolutions

The graphics display resolution is the width and height dimension of an electronic visual display device, such as a computer monitor, in pixels. Certain combinations of width and height are standardized and typically given a name and an initialism that is descriptive of its dimensions. A higher display resolution in a display of the same size means that displayed photo or video content appears ...

This post describes an autofocus test chart I've developed, why I think it's better than others I've seen, and how to use it to test the autofocus of your camera and lens: If you suspect that your modern SLR or SLR lens has autofocus problems, you can use a chart like the one offered on this page to perform some tests. The basic premise of a chart like this is that when photographed at an...
