Chemistry - 101science.com

The chemical industry is more diverse than virtually any other industry in the United States. Harnessing basic ingredients, the industry 1 produces a plethora of products not usually seen or used by consumers but that are essential components of, or are required to manufacture, practically every consumer and industrial product (). Many chemical industry products are intermediates, and chemical ...

5 The Chemical Industry | Industrial Environmental ...

In a chemical reaction, one or more reactants are transformed into products: reactants → products. The purpose of a chemical equation is to express this relation in terms of the formulas of the actual

reactants and products that define a particular chemical change. For example, the reaction of mercury with oxygen to produce mercuric oxide would be expressed by the equation

Chemical Equations and Calculations

Acids, bases, pH tutorial - this 19-part tutorial from the University of B.C. provides extensive coverage of acid-base chemistry, as well as the common ion effect and biological applications. There is a separate multiple-choice quiz page for each section. Acid-base chemistry (UNC-Chapel Hill) Good summary with example problems.. ChemBuddy tutorials on Acid-Base and pH calculations - a well ...

GRADES: ****IF YOU MADE A 'D' in chem 101, you really should consider retaking chem 101 or have a very good reason for this score if you decide to continue in chem 102. Ideally, you want to have all of the concepts from chem 101 firmly understood, so you can go on to chem 102. I will always remind you of the concepts we are building on, so you can review the material if you need to.**
