Welcome to visit the official website of 4th International Conference on Computer Science and Information Engineering (ICCSIE2019), which will be held in Beijing during Sep. 27-28, 2019.

## **4th International Conference on Computer Science and ...**

Computer science is the study of processes that interact with data and that can be represented as data in the form of programs. It enables the use of algorithms to manipulate, store, and communicate digital information. A computer scientist studies the theory of computation and the practice of designing software systems. Its fields can be divided into theoretical and practical disciplines.

In computer engineering, microarchitecture, also called computer organization and sometimes abbreviated as  $\mu$ arch or uarch, is the way a given instruction set architecture (ISA) is implemented in a particular processor. A given ISA may be implemented with different microarchitectures; implementations may vary due to different goals of a given design or due to shifts in technology.
