Belden Speed & Engineering is a small speed shop focused on preserving, restoring and increasing the performance of mid 1960's through early 1970's American muscle cars. We work on naturally-aspirated (carburetors!!) street cars that most of today's shops lack the experience or passion to repair, restore and tune them.

This article applies to the Chevrolet Silverado K2XX (2014-Present). The always pesky and always mysterious check engine light has turned on. But in the day and age where the Chevy Silverado has a sensor for everything, it could literally mean that your gas cap is off, or it could mean catastrophic engine failure is about to happen.

A wood gas generator is a gasification unit which converts timber or charcoal into wood gas, a syngas consisting of atmospheric nitrogen, carbon monoxide, hydrogen, traces of methane, and other gases, which - after cooling and filtering - can then be used to power an internal combustion engine or for other purposes. Historically wood gas generators were often mounted on vehicles, but present ...
