Extreme poverty, abject poverty, absolute poverty, destitution, or penury, was originally defined by the United Nations (UN) in 1995 as "a condition characterized by severe deprivation of basic human needs, including food, safe drinking water, sanitation facilities, health, shelter, education and information. It depends not only on income but also on access to services."

Until very recently, extreme poverty in the world was the norm. Extreme poverty has been falling quickly in recent decades, but still 10% of the world still live on less than \$1.90 per day. See global and country-level data on the prevalence of extreme poverty and how and why this has changed.

### **Global Extreme Poverty - Our World in Data**

This paper traces the history of China's reform of its monetary policy framework and analyzes its success and problems. In the context of financial marketization and the failure of the quantity-targeting framework, the People's Bank of China transformed its monetary policy framework toward one that targets interest rates.
