Formwork: a Guide to Good Practice - Civil Engineering ...

Formwork and concrete form types. Formwork comes in several types: Traditional timber formwork. The formwork is built on site out of timber and plywood or moisture-resistant particleboard. It is easy to produce but time-consuming for larger structures, and the plywood facing has a relatively short lifespan.

Formwork - Wikipedia

The fact that the floor is still in fairly good condition is a testament to the quality of the mixed on site concrete. A lot of people tend to think that formwork is a semi skilled occupation. To be fair there are a lot of guys that started off as labourers and finish up as formwork carpenters without any formal training.
