Global History and Geography exam - Regents Examinations

Table 1 summarises some of our key hypothesised mechanisms by which climate change may undermine human security and may, in conjunction with an array of non-climate specific factors, increase the risk of violent conflict. It is important to stress that climate change will not undermine human security or increase the risk of violent conflict in isolation from other important social factors.

Climate change, human security and violent conflict ...

Geographers organize information into five themes. When we want to learn about a certain country, city, region, etc., we use the Five Themes of Geography. For each of the Five Themes, students should ask themselves the following questions about a particular country or region:

A continent is one of Earth's seven main divisions of land. The continents are, from largest to smallest: Asia, Africa, North America, South America, Antarctica, Europe, and Australia. When geographers identify a continent, they usually include all the islands associated with it. Japan, for instance, is part of the continent of Asia.
