The information is provided in a comprehensive manner, with highly detailed sketches. The book is divided into twenty chapters, each covering different aspects of internal combustion engines.

Internal Combustion Engine by V Ganesan PDF

A V engine, or Vee engine is a common configuration for an internal combustion engine. The cylinders and pistons are aligned, in two separate planes or 'banks', so that they appear to be in a "V" when viewed along the axis of the crankshaft. The Vee configuration generally reduces the overall engine length, height and weight compared with an equivalent inline configuration.

I C Engine By V Ganesan - sjohnsonlaw.com

The base of a reciprocating internal combustion engine is the engine block, which is typically made of cast iron or aluminium. The engine block contains the cylinders. In engines with more than one cylinder they are usually arranged either in 1 row (straight engine) or 2 rows (boxer engine or V engine); 3 rows are occasionally used in contemporary engines, and other engine configurations are ...
