The German School of Diffusionism has chief proponents like Friedrich Ratzel, Leo Frobenius, Fritz Graebner and William Schmidt. Their approach was through the analysis of culture complexes identified geographically and studied as they spread and developed historically. It has both time and space dimensions. The first dimension of space was explained in terms of culture circles and the second ...

Medical anthropology studies "human health and disease, health care systems, and biocultural adaptation". It views humans from multidimensional and ecological perspectives. It is one of the most highly developed areas of anthropology and applied anthropology, and is a subfield of social and cultural anthropology that examines the ways in which culture and society are organized around or ...

Medical anthropology - Wikipedia

Students may be eligible to receive advanced placement or college credit by taking examinations available nationally. Students take these tests to determine their level of competence in certain subject areas.

Credit by Exam - Grand Valley State University

Negroid (also known as Congoid) is a grouping of human beings historically regarded as a biological taxon. The term has been used by forensic and physical anthropologists to refer to individuals and populations that share certain morphological and skeletal traits that are frequent among populations in most of Sub-Saharan Africa and isolated parts of South and Southeast Asia ().
