Gone are the days when spying was limited to only some government agencies and other such companies. With the advancement in technology, it is now possible on the part of every individual to track the mobile phones of someone they want to keep an eye on like their kids, spouse or employees.

Is there a way to track my boyfriends/gf's text messages ...

Alternative text for images used as links. When images are used as links, the alternative text performs the function of link text. As with linked text, the alt text of linked images does not need to inform users that the link is a link, since this is already presented.

WebAIM: Links and Hypertext - Link Text and Appearance

The transcription in the left-hand column should match the text as it was originally published. Where words are misspelt, or there are typesetting errors, the correct spelling should be added as a comment to the article.

Text correction guidelines | Help centre

That's all there is to it. The content of the string, that is, the human readable characters, didn't change, but it's now a valid UTF-32 string. If you keep treating it as UTF-32, there's no problem with garbled characters. As discussed at the very beginning though, not all encoding schemes can represent all characters. It's not possible to encode the character "□" in any encoding scheme ...

What every programmer absolutely, positively needs to know ...

Text to Speech - Common Issues. Listen uses Google Translate's Text To Speech API to play back the written text into spoken voice.. Google's Text to Speech system can only convert strings that have less than 100 characters and the same limitation is applicable to Listen as well.

A written language is the representation of a spoken or gestural language by means of a writing system. Written language is an invention in that it must be taught to children, who will pick up spoken language (oral or sign) by exposure even if they are not specifically taught.. A written language exists only as a complement to a specific spoken language, and no natural language is purely written.
