The STTARR (Spatio-temporal Targeting and Amplification of Radiation Response) program opened its doors to the research community in October 2007.

### **Home - STTARR**

Blood doping is the practice of boosting the number of red blood cells in the bloodstream in order to enhance athletic performance. Because such blood cells carry oxygen from the lungs to the muscles, a higher concentration in the blood can improve an athlete's aerobic capacity ( $VO_2$  max) and endurance. Many methods of blood doping are illegal, particularly in professional sports.

### **Blood doping - Wikipedia**

Warning. Always consult your doctor or other practitioner knowledgeable in sauna use before beginning a sauna therapy program. Saunas are powerful devices and monitoring your progress by a professional trained in sauna use is always advisable.
