Sales management is a business discipline which is focused on the practical application of sales techniques and the management of a firm's sales operations. It is an important business function as net sales through the sale of products and services and resulting profit drive most commercial business. These are also typically the goals and performance indicators of sales management.

Sales management - Wikipedia

Property rights are theoretical socially-enforced constructs in economics for determining how a resource or economic good is used and owned. Resources can be owned by (and hence be the property of) individuals, associations or governments. Property rights can be viewed as an attribute of an economic good. This attribute has four broad components and is often referred to as a bundle of rights:
