Mazda Wreckers - South Wreckers

Mazda's automotive plans for the early sixties consisted of growing alongside the Japanese economy. To achieve this goal, they began by building an extremely affordable Kei car, the R360 in 1960, planning on introducing gradually larger and pricier cars as the Japanese customers became able to afford them. [citation needed] As a preview, testing the waters, a larger "Mazda 700" prototype was ...

Mazda, however, claimed to have solved the apex seal problem operating test engines at high speed for 300 hours without failure. After years of development, Mazda's first Wankel engine car was the 1967 Cosmo 110S.The company followed with a number of Wankel ("rotary" in the company's terminology) vehicles, including a bus and a pickup truck.Customers often cited the cars' smoothness of operation.
