Marketing Perspective. Early marketing channel researchers such as Wroe Alderson and Louis P. Bucklin conceptualized the key factors for why and how channels are created and structured 29, 30, 31. From a supply chain standpoint, these researchers were on the right track in the areas of: 1) identifying who should be a member of the marketing channel, 2) describing the need for channel ...

Issues in Supply Chain Management - ScienceDirect

Jugdev and Müller (2005) critiqued these, highlighting how the focus was on the operational level rather than strategic management and the linking of a project to overall organisational objectives. This highlighted a need to assess a project from multiple perspectives (those involved in the operational and strategic levels).

Different stakeholder groups and their perceptions of ...

In computer science, counting sort is an algorithm for sorting a collection of objects according to keys that are small integers; that is, it is an integer sorting algorithm. It operates by counting the number of objects that have each distinct key value, and using arithmetic on those counts to determine the positions of each key value in the output sequence.
