(69 replies) I noticed that many of the manual pages are inconsistent with the `perlstyle.pod` guidelines. While this may seem like a minor quibble, I personally think the quality of documentation is visible from the writing and adhering to the style conventions. Some issues that I've noticed: - 3-arg `open()` command not encouraged widely. - Use of 'or' and 'and' not encouraged widely as a more ...

### **[P5P] RFC: Perl manual pages -- update to follow the ...**

Reading the Frickin' Manual. The perl manual pages are on your system somewhere (unless you have Mac OS X, it seems: stay tuned for updates). You can use the `perldoc` command line program to read a particular page. If you want to find out how to use it, use the `perldoc` command to read its documentation.

### **Perl documentation documentation**

(The other PostScript utility in `psutils` is `psbook` which can rearrange pages in a PostScript document for book style printing.) Formatting pages on our Sun servers. Nicely formatting Perl POD documentation from our Sun servers is harder as we have not installed `groff` and a Sun-supplied equivalent, `dpost`, breaks on `pod2man` output.
