Mon, 14 Jan 2019 12:02:00 GMT Gaston Sanchez - Partial least squares regression (PLS regression) is a statistical method that bears some relation to principal components regression; instead of finding hyperplanes of maximum variance between the response and independent variables, it finds a linear regression model by projecting the predicted variables and the observable variables to a new space. . Because both the X and Y data are ... Wed, 16 Jan 2019 07:35:00 GMT Partial least squares regression - Wikipedia - PLS-regression (PLSR) is the PLS approach in its simplest, and in chemistry and technology, most used form (two-block predictive PLS).
