WAMAP is a web based mathematics assessment and course management platform. Its use is provided free to Washington State public educational institution students and instructors.

WAMAP

Project-based learning (PBL) is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem.

- Projects need resources like people and equipment. The availability and cost of resources like these affect the project's schedule and cost. But you also might spend money on things like materials, travel, or training. Project has several resource types to represent the resources you use in your projects. Depending on the type of resource, you'll fill in different fields.

Yes there is, as long as you are using a .xls format spreadsheet (the default for Excel up to 2003). For Excel 2007 onwards, the default is .xlsx, which is a fairly secure format, and this method will not work.. As Treb says, it's a simple comparison. One method is to simply swap out the password entry in the file using a hex editor (see Hex editors for Windows).

Is there a way to crack the password on an Excel VBA ...
