Sensor fusion is combining of sensory data or data derived from disparate sources such that the resulting information has less uncertainty than would be possible when these sources were used individually. The term uncertainty reduction in this case can mean more accurate, more complete, or more dependable, or refer to the result of an emerging view, such as stereoscopic vision (calculation of ...

Answers in Genesis (AiG) is a fundamentalist Christian apologetics parachurch organization. It advocates Young Earth creationism on the basis of its literal, historical-grammatical interpretation of the Book of Genesis. Out of belief in biblical inerrancy, it rejects the results of those scientific investigations that contradict their view of the Genesis creation narrative and instead supports ...

Biochar composition can be crudely divided into relatively recalcitrant C, labile or leachable C and ash. The greatest chemical difference between biochar and other organic matter is the much larger proportion of aromatic C and, specifically, the occurrence of fused aromatic C structures (C_{10}), in contrast to other aromatic structures of soil organic matter such as lignin (Schmidt and Noack, 2000).
