This November, Californians will vote on an initiative that would require any food containing ingredients derived from genetically modified crops to be labeled as such.. Backers of the "California Right To Know Genetically Engineered Food Act" are pitching it as a matter of providing information to consumers, who, they argue, "have a right to know what's in the food we buy and eat and ...

The anti-GMO campaign's dangerous war on science

This post was triggered by someone reaching here with the search "What is inside peach seeds that's poison". I almost decided to laugh about it like on all other silly search phrases leading here, but then figured I should at least check if maybe it's not silly.. And it turns out that peach seeds actually contain Cyanide, in the form of Amygdalin.

How poisonous are peach seeds? -- [Ordinary Nothing]

This is the start of the project, and the goal of this phase is to define the project at a broad level.
