The term Research Unix first appeared in the Bell System Technical Journal (Vol. 57, No. 6, Pt. 2 Jul/Aug 1978) to distinguish it from other versions internal to Bell Labs (such as PWB/UNIX and MERT) whose code-base had diverged from the primary CSRC version. However, that term was little-used until Version 8 Unix, but has been retroactively applied to earlier versions as well.

A man page (short for manual page) is a form of software documentation usually found on a Unix or Unix-like operating system. Topics covered include computer programs (including library and system calls), formal standards and conventions, and even abstract concepts. A user may invoke a man page by issuing the man command. By default, man typically uses a terminal pager program such as more or ...

Find command in Unix is a powerful utility to search for files. Search with Unix Find File command can be based on different criteria, and the matching files can be run through the defined actions.

**Find Command in Unix: Search Files with Unix Find File ...**

Following is a very brief introduction to some useful Unix commands, including examples of how to use each command. For more extensive information about any of these commands, use the man command as described below. Sources for more information appear at the end of this document.

**Introduction to Unix commands - Knowledge base**

Basic UNIX commands Note: not all of these are actually part of UNIX itself, and you may not find them on all UNIX machines. But they can all be used on turing in essentially the same way, by typing the command and hitting return. Note that some of these commands are different on non-Solaris machines - see SunOS differences. If you've made a typo, the easiest thing to do is hit CTRL-u to ...

I think I lost (or forgot the file location) a file named toms-first-birthday.mp4 on my Unix based system. Is there is a Unix bash shell command to find a file called "toms-first-birthday.mp4" in a directory and subdirectories? You need to use the find command on a Linux or Unix-like system to search through directories for files.

**Unix command to find a file in a directory and subdirectory**

Miscellaneous: man - display online documentation ("man ual pages") for a command. Example: man ls displays detailed documentation on the ls command. apropos - list the manual pages relating to a particular keyword. Example: apropos file list manual pages that mention "file" in their summary line.
