Who Does The Supreme Court

The power of the Court is reflected in the work it does, and its decisions often shape policy as profoundly as any law passed by Congress or any action taken by the president. The Power of Choice The Supreme Court chose to hear the case United States v. the Claimants of the Amistad (1841) because of its implications to the United States's foreign relations.

The Supreme Court: What Does It Do? [ushistory.org]

The Supreme Court is the final judge in all cases involving laws of Congress, and the highest law of all — the Constitution. The Supreme Court, however, is far from all-powerful. Its power is limited by the other two branches of government. The President nominates justices to the court.

The Role of the Supreme Court | Scholastic

Supreme court. A supreme court is the highest court within the hierarchy of courts in many legal jurisdictions. Other descriptions for such courts include court of last resort, apex court, and highest (or final) court of appeal. Broadly speaking, the decisions of a supreme court are not subject to further review by any other court.

Supreme court - Wikipedia

Article III, Section I states that "The judicial Power of the United States, shall be vested in one supreme Court, and in such inferior Courts as the Congress may from time to time ordain and establish." Although the Constitution establishes the Supreme Court, it permits Congress to decide how to organize it.

About the Supreme Court | United States Courts

The U.S. Supreme Court. Article III of the Constitution established the federal judiciary as one of the three equal branches of the federal government.
